REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The 2010-2011 school year at Fairfield Magnet School for Math and Science was an outstanding one as we were "Improving Tomorrow by Learning Today."

Our students continued to progress in many ways. We focused our attention on raising the bar to surpass the accomplishments of the previous year. To do this, we focused on closing the achievement gap using a variety of best practices driven by our curriculum standards. We successfully implemented using data to drive instruction, focused on rigorous teaching, and embedded intervention throughout the academic year and small group reading and math instruction to focus on annual growth for all students. Two of our sixth grade students were recognized for their science accomplishments at the state Science Fair. Students were recognized by the district for achieving Exemplary in two or more areas on the 2010 PASS. We celebrated our students who achieved their MAP goals and made gains from fall to spring. Many of our students received awards for the arts and academics throughout the year, as well as making the Principal's Honor Roll. This year, we received the Farm-to-School grant that will allow our students to plant on-site gardens aimed at getting fresh fruits and vegetables onto lunchroom tables and practice healthy eating habits. The implementation of the Best Foot Forward Club has also improved the healthy eating habits of many of our students.

Increasing learning and leadership opportunities beyond the classroom for our students is one of our goals. We saw growth in our students' accomplishments on the MAP test. Students who were demonstrating lack of growth were included in our RTI (Response to Intervention) groups, where additional attention was given to that student and a plan developed and implemented to monitor student's progress. Our students participated in the Wildcat Morning Show, chorus, drumline, Media Assistant Team, Dance Company, Flag Patrol, Art Works and special performances to showcase their talents.

We held many educational, informative, and motivational events in an effort to increase learning opportunities and community involvement. Meet and Greet, Open House, Pastries for Parents, Field Day, PASS Rally, Family Math and Science Night, Family Literacy Night, the Science Fair, Career Fair, Pageant, and student PTO performances are some events that enhanced learning and engaged students in fun, standard-based activities. Many of our music, dance, art, and Spanish students participated in the two parades held in our community. Parent support of these events was great this year!

In addition to providing a challenging curriculum, the school continues to offer a stellar Fine Arts program. Dance, Strings, Music, Spanish, Art, Chorus, Show Band, and Drumline provided an additional platform for students to showcase their talents. Teachers implemented rigorous instructional practices based on data analysis and Barbara Blackburn's book *Rigor is Not a Four Letter Word*. "Yardsticks to Success" behavioral management system, Green Day celebrations, and positive referrals remain instrumental in encouraging positive student behavior.

For the 2011-2012 school year, we will enhance our curriculum by implementing the STEMS model and exposing our students to technology and engineering which will accompany the math and science curriculum. Teachers will continue to use the work of Barbara Blackburn, the author of *Rigor is Not a Four Letter Word*, as they strive to challenge our students to be thinkers and learners.
